

TRAVIS & COMPANY

...is proud to present our private label upholstery...

This is a collection of our favorite pieces, benchmade exclusively for our clients. We offer you the very finest upholstery at an unmatched price point. Travis Upholstery is a small group of craftsmen that has decades of dedicated experience, commitment to perfection, and meticulous attention to detail. The furniture that results is timeless and lifelong.

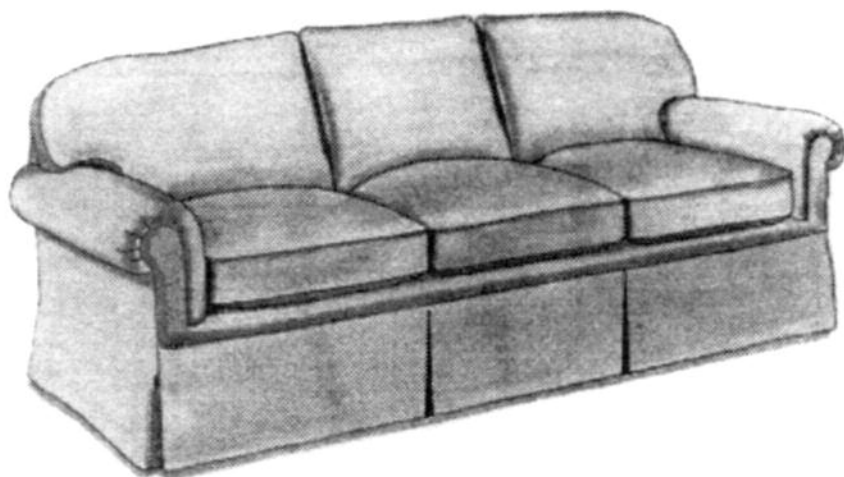

TRAVIS & COMPANY

Construction Features

- **FRAMES** are constructed using kiln-dried hard maple. This is far superior to most upholstery frames which are usually made of dried poplar or oak which can warp and split.
- **FRAME JOINTS** are double dowelled and corners are heavily braced with corner blocks having four screws each instead of two which is more commonly found.
- **FRAME BASES** contain FOUR ROWS OF COIL SPRINGS, each of which is tied eight ways to the other springs and frame. Each row of coils is constructed of different guage steel for added comfort. Standard eightway hand tied coil spring construction generally found consists of three rows of coils of the same guage steel.
- **PRECISE TAILORING** is the most apparent characteristic of quality. All patterns are matched and custom fitted to the chair or sofa.
- **SOFA & CHAIR BACK** are constructed using springs AND webbing as opposed to only upholstery webbing. Again, this feature gives added comfort.
- **STANDARD BACK CONSTRUCTION** is 10/90 down held in down proof ticking. Each cushion is channeled, which means that the down is held in separate areas of the cushion to prevent sagging.
- **SPRING DOWN CUSHION** is our standard cushion. Spring coils are individually wrapped with muslin, covered with one inch of foam rubber, then surrounded by down within a down proof cover.
- **CUSTOM LENGTHS & SIZES** and other modifications are available at an extra charge.
