

TRAVIS & COMPANY

Acrylic

This outstanding line of acrylic furniture and accessories has been created to blend easily into any design situation – whether it be traditional or contemporary.

Our firm opinion is that the purity and clarity of acrylic itself makes a classic statement when molded and polished by hand. Each piece is very simple in design, but very prismatic and sculptural to the eye.

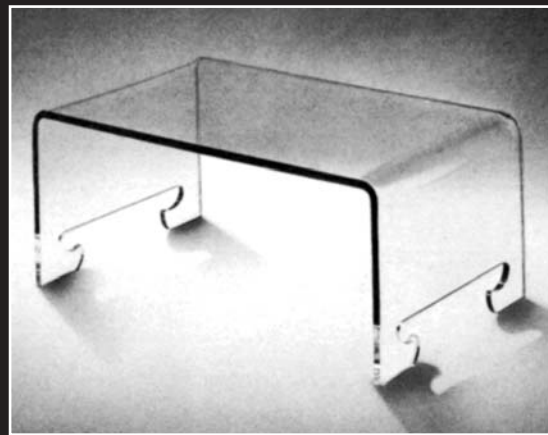

We are most careful to make note that acrylic offers the advantage of strength and pliability over glass. Also, if ever necessary, acrylic may be re-polished to remove unsightly scratches – glass must be replaced. The same careful maintenance you would devote to a precious antique should be given to your piece of acrylic furniture. Ordinary dust is very abrasive to any material, particularly acrylic. Do not ever dust with a dry cloth. Use warm water and mild detergent or acrylic cleaners available in most stores. The use of a commercial acrylic cleaner and polisher adds luster to the surface and builds a nice patina.

Custom designs are available. Send us your specifications for a price quote. Travis & Company is committed to the highest quality. Each piece in our line is actually one of a kind, as each piece is handcrafted. Please include us in your design plans.

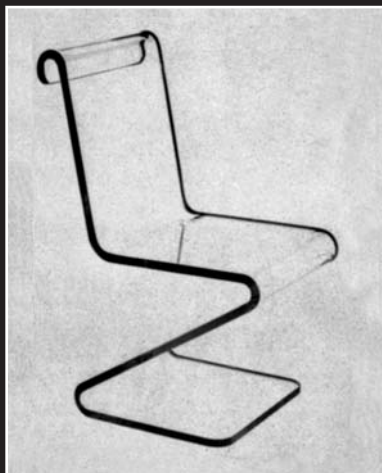

Front Cover:

T-35 Greek Key Coffee Table
40"Wx24"Dx17"H
